Hw7_3 - Plot of f(x) = e^(-x^2)
and its 1st derivative taken:
        analytically
        forward difference approximation
        backward difference approximation
        central difference approximation

        2nd derivative taken:
        analytically
        second order central difference approximation
